Bakery Hill and the Bridge Mall precinct are key central areas of Ballarat CBD and a major gateway to the city, rich with historical significance.

The City of Ballarat is undertaking an urban renewal project to help guide and manage change for the future of this area.

The plan will help stimulate jobs, investment and housing,

improve public areas and build a thriving, diverse, sustainable and great place for people to live, work, visit and learn locally.

We are keen to hear from everyone – business owners, shoppers, residents, visitors, students and families – to understand what you love about the precinct, and what you would like to see retained or re-imagined.
