Category: **Conservation of a Heritage Place**

Project: **Former Reid's Coffee Palace Restoration  
128 Lydiard Street North**

External works returned the building's exterior to a safe, sustainable and historically accurate condition, enhancing the building, the Lydiard Street streetscape and occupant experience. Internal works reversed changes that had occurred to the main entry and stair hall and revealed the early decorative paint scheme. This well considered project has ensured the life of the building into the future.
